

PE and Sport Premium Funding Upton Junior School

2017-18

Upton Junior School has always placed a high value upon sport and the many positive aspects that transfer across a school environment. From physical fitness; to teamwork; to greater mental health, sport has a massive role to place alongside traditional academia in ensuring our children develop into confident and capable adults, able to work socially and independently in a range of settings.

As former winners of the National Primary Sports School of the Year award, the School Sport Top 100 State Schools and numerous other awards and kitemarks, the challenge for Upton is to build and improve year on year in a sustainable way, but this is challenge we welcome, just as we welcome the government's commitment to funding primary school sport. It is at this age that children develop a love of the sport that we hope will help overcome the decline in sports participation during teenage years.

This year Upton will receive £21 240 from the Primary Sport Grant. In creating the document below the school have drawn on best practice from AfPE (commissioned by the DfE to develop Sports Premium resources for schools) as well as the Primary School Physical Literacy Framework and the Ofsted Common Inspection Framework.
