Within Maths teaching and learning, the CPA approach encourages the use of: Concrete; Pictorial; Abstract. The intention of such a progression is to develop the concept of 'Maths Mastery' in which all children fully grasps concepts before they are moved on within the curriculum.

# TOPIC (UBBC)

Our UBBC curriculum link

This term we will be starting with the topic of 'Children in WWII'. In this unit we will be learning about how the war affected children and Britain on the home-front, as well as about key moments in the war. This Topic links with our English text and so will give the children a broad understanding of the war.

Children will enjoy:

- WWII experience day
- Learning a wartime jive (parents invited - dig out your dancing shoes!!!)
- History on our door step - a trip to the Ramsgate tunnels

WWII: create a WWII evacuee suitcase. It can be as creative as you wish (3D D&T, items bought and put together, items drawn to inside, use of real artefacts - no gas masks) **Due 10<sup>th</sup> October.**
