

# Key Instant Recall Facts

## Year 4 – Autumn Term 1

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with speed and accuracy:

### I know multiplication and division facts for the 6 times table

Children should be able to instantly recall the 6 times table facts below:

#### Top tips

The secret to success is practising little and often. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

#### Practical resources and ideas

Double your threes – Multiplying a number by 6 is the same as multiplying by 3 then doubling the answer.  $7 \times 3 = 21$  and double 21 is 42, so  $7 \times 6 = 42$

Buy one get three free – If your child knows one fact (e.g.  $3 \times 6 = 18$ ), can they tell you the other three facts in the same fact family?
