

Cracking the Earth's Core Homework Grid

Children can choose a piece of homework they would like to focus on each week. They do not have to do ALL of the tasks, just ONE PER WEEK. They can choose to record in their book, send in photos or bring the homework in to show.

Create an advice leaflet outlining what to do should a volcano erupt.	Draw a picture of a volcano scene.	Research the temperatures of different volcanic countries e.g. Hawaii, Iceland, Italy. Present your findings in a table.	Research clothing that volcanologists wear at work. Design and label an outfit for a volcanologist.	Using food, create a volcano!
Write an acrostic poem using the letters from the word VOLCANO.	Create a board game inspired by volcanoes.	Find and compare the heights of different volcanoes. Present your findings in a table.	Research Mauna Loa and create a presentation.	Create a dictionary that explains key volcanic vocabulary in your own words.
Create a story about an earthquake.	Create a 3D model of a volcano.	Create a timeline of events for a historical volcanic eruption.	Write a song that would go well with the footage of a volcano erupting.	Create a homework task of your choice linking to natural disasters! This is your chance to really amaze and impress your teacher!
